

{top ten} honeymoon!

"One of the best parts about planning a wedding is definitely the honeymoon; make yours soar with these **10** valuable tips." -Jen | Something Turquoise

1 Traditionally speaking the honeymoon is the grooms responsibility - let him take care of it!

2 Make sure to pack a carry-on full of your honeymoon essentials. Items that will get you through in case anything happens to your luggage.

3 Accessorize your bags with personalized 'Mr & Mrs' luggage tags! Available on Etsy.

4 Take time to enjoy each other! Turn your phones off (after you post the expected FB photo) and don't turn them back on until you get home!

5 What season will it be where you are traveling to? Will it be winter, spring, summer or fall? This will be important to know for planning activities, packing and your overall experience.

6 Make sure ALL travel documents are booked using your maiden name! I'm sure you are very excited about being his 'Mrs' but legally you won't be until you receive your official Marriage License weeks after your wedding. Don't get stuck at the airport because your plane ticket doesn't match your Passport!

7 Make an adorable 'honeymoon fund' savings jar to easily save spare change to spend on silly stuff while on your trip!

8 When you are traveling, make sure to buy something special for your new home. Each time you look at that object it will remind you of that wonderful time!

9 The days leading up to your wedding and the days after can be exhausting... so once you get to your honeymoon destination, give yourself a few days to simply relax. If possible plan your more adventurous activities towards the end of your trip when you will be the most rested.

Something Turquoise's Monthly Top 10 is written, curated, and designed by Jen Carreiro. Created exclusively for the daily bridal inspiration blog www.SomethingTurquoise.com.

10 The best tip of all: Before you leave, both of you must purchase a brand new perfume/cologne that you have never worn before. Then wear it your ENTIRE trip. For all time that scent will remind you of your honeymoon!
